Education and Sports to understand contemporary perspectives about learning, -create learning tasks that will motivate participants, and -design tasks for use with participants of all ages and abilities. There's more to helping participants develop motor skills than just coming up with relevant drills; if you want participants to succeed, you need to structure learning tasks to keep them interested, motivated, and engaged.

## **Designing Effective Instructional Tasks for Physical ...**

Meaningful activities engage students in active, constructive, intentional, authentic, and cooperative ways. Useful learning activities are ones where the student is able to take what they have learnt from engaging with the activity and use it in another context, or for another purpose. For example, students are able to directly apply the skills or knowledge they acquired to an assessment task, or to the next activity in your unit.
