Greek Architecture: Ad 14-70: Richard A. Tomlinson ...

The architecture of ancient Greece is the architecture produced by the Greek-speaking people (Hellenic people) whose culture flourished on the Greek mainland, the Peloponnese, the Aegean Islands, and in colonies in Anatolia and Italy for a period from about 900 BC until the 1st century AD, with the earliest remaining architectural works dating from around 600 BC.

Ancient Greek architecture - Wikipedia

There are five orders of classical architecture - Doric, Ionic, Corinthian, Tuscan, and Composite - all named as such in later Roman times. Greek architects created the first three and hugely influenced the latter two which were composites rather than genuine innovations.

However, the greatest Greek monument is the Temple of Parthenon, constructed on the sacred site of the Acropolis Athens. The Parthenon, built from 447 to 438 BC, is a brilliant example of Doric and Ionian architecture. This octostyle, peripteral temple was dedicated to goddess Athena, the protector of the town,...

Introduction to Greek architecture (article) | Khan Academy

Built in 580 BC, the temple measured 49m by 23.46m and was the biggest temple of its time. From examples found in the temple ruins, it can be seen that the metope of the temple was decorated with carvings of Achilles and Memnon. Its magnificence and authenticity have made it a landmark in ancient Greek architecture.

The Temple of Augustus is the only remaining structure from the original Roman forum in Pula, Croatia. Dedicated to the first Roman emperor, Augustus, it was probably built during the emperor's lifetime at some point between 2 BC and his death in AD 14. Under Byzantine rule, the temple was converted into a church and was later used as a granary.

10 Most Spectacular Ancient Roman Temples (with Photos ...

The Archaic age (see History of Greek Europe) was the formative period of Greek architecture, during which the typical layouts, proportions, and decorative elements of the Greek temple were established.. The earliest Greek temple design was essentially a rectangular building with a portico (covered porch with columns) fitted to the entrance. This plan was based on the Mycenaean megaron (see ...

Architectural History Part 1 - Ancient Greek Architecture

If you only read one book on Greek architecture, read this one. (Be sure to get the recent edition updated by R.A. Tomlinson.) Unlike predecessors such as Dinsmoor, Lawrence sets out to build an argument rather than create a catalog of Greek buildings and their details.

Greek Architecture by A.W. Lawrence - Goodreads

Ancient Greek architects strove for the precision and excellence of workmanship that are the hallmarks of Greek art in general. The formulas they invented as early as the sixth century B.C. have influenced the architecture of the past two millennia. The two principal orders in Archaic and Classical Greek architecture are the Doric and the Ionic.

Architecture in Ancient Greece | Essay | The Metropolitan ...

Construction of the Colosseum began under the rule of Vespasian in around 70-72 AD (73-75 AD according to some sources). The Colosseum had been completed up to the third story by the time of Vespasian's death in 79. The top level was finished by his son, Titus, in 80, and the inaugural games were held in 80 or 81 AD.

Colosseum - Wikipedia

The architecture of Classical Greece became a cornerstone of later developments in the history of architecture, from the Roman Empire through the twentieth century. As an object of both imitation and inspiration, the Parthenon epitomizes the ideals of its creators, and a model for modern students and scholars.

Miletus was an ancient Greek Ionian city-state on the western coast of Asia Minor in today's Turkey. The Milesian School consisted of Thales, Anaximander, and Anaximenes (all from Miletus). The three are sometimes described as "materialists," because they believed that all things derived from a single material.
